The Scenario Workshop on November 30th, 2012 and this report were made possible thanks to the following relevant contributions:

- the availability and use authorization of the Scenario Workshop methodology (originally developed by the European Commission Directorate-General XIII) under the coordination of the EC Monitor of the European Awareness Scenario Workshop, Prof. Roberto Pagani
- the team of facilitators, instigators, assistants, namely:
Riccardo Balbo
Corrado Carbonaro
Giacomo Chiesa
Roberto Fraternali
Alessandra Merlo
Carlo Ostorero
Roberto Pagani
Giuseppe Roccasalva
Lorenzo Savio

Scientific reference: Pier Giorgio Turi
Coordinator: Maria Bucci

NOTE: The European Awareness Scenario Workshop is a project of the European Commission DG Enterprise aiming to encourage public debate, to create a balanced relationship between society, technology and environment and to ensure sustainable development according to the wishes and needs of local communities.

The methodology of the Scenario Workshop was selected between others awareness methodologies developed in Europe. The European Commission developed a pilot training scheme for National Monitors of the European Awareness Scenario Workshop methodology and developed a set of working tools for National Monitors that are now performing and further disseminating this initiative.
